Bayer is a global enterprise with more than
302 companies* in 75 countries on all continents.
**fully consolidated subsidiaries (as of Dec. 31, 2014)*

We're participating in this Speed Recruiting because...

...We were here last year, and it really paid off! We met lots of interesting, talented and highly motivated candidates and had great talks with them. There was absolutely no question as to whether we'd be coming here again. This year, in particular, we can offer you internships and attractive entrance opportunities after your studies in the areas of Business Consulting and Finance and Accounting/Controlling either via direct entry or our international trainee program in Financial Management. And of course, we'd like to use the chance to show you the numerous attractive opportunities Bayer offers as an employer. We're looking forward to a fun evening in the Alte Versteigerungshalle in Cologne!

Passion to innovate | Power to change
